Would you like to check your work?

Your proof should be used to check:

- For spelling mistakes and missing digits
- That you have included all the details you want (email, URL etc)
- If your design reaches all the way to the edge of the bleed
- The orientation of your design. If you fold this page in half would your designs face the right way up?

Your proof can't help with:

- Color proofing – what you see on your screen will always look slightly brighter than the printed version. Similarly, your printer may not print exactly the same as ours.

Please note: This proof is designed to allow you to check your designs and to proofread (we know it's often easier on paper). It is not a full print-ready file. Any images on this preview are high-resolution but are not our full print resolution.

Got a question?
If you're non-technical, this stuff can be a bit confusing. Have a read through our Frequently Asked Questions at **moo.com/help/faq**, but if that doesn't help, please do contact our Customer Service Team at **moo.com/help/contact-us.html**. They won't rest until you're 100% clear about everything you need to know!

Need to print?
If you do need to print in order to accurately proof your work, please do – but remember to check how long it is! It'd be a shame to print out a 60-page document if all you need is the first one.

Bleed (your design should fill this)

Trim (this is where we aim to trim your cards)

Safe area (Make sure any important aspects of your design such as text and logos are inside of the safe area, otherwise they may be cut off)

proof **Watermark** (Don't worry, this won't print)
